

OFS GUANO POWDER

OFS Guano Powder is a micronized guano powder. It provides a microbe friendly source of phosphorus and calcium.

Calcium and phosphorus cannot normally be combined in the one fertiliser.

OFS Guano Powder is based on natural guano. It provides the two nutrients in a safe and effective form.

DIRECTIONS FOR USE

OFS Guano Powder is used in a wide range of agricultural enterprises to provide natural phosphorus and calcium. It is best applied to the soil, however is useful as a foliar spray.

Suitable for use as a soil drench, via irrigation or as a foliar spray.

Applied through standard spraying and irrigation equipment.

Pre mix thoroughly with equal quantity of water prior to adding to spray or fertigation tank. Add to full tank under agitation.

Ensure constant agitation during use.

If used as a foliar spray this product will leave visible residue on leaves. If this is a concern then apply via soil.

APPLICATION RATES

Horticulture:

Via Irrigation - 5-10kg/ha applied 3-5 times during growing season. Dilute 1:100 with water.

Foliar Spray – 3-7kg/ha; dilute at least 1:200 with water.

Transplants - Dilute 1:250 with transplant water

Broad-acre:

Pre -plant (injection) – 5-10kg/ha; pre-mix 1:2 with water

ORGANIC FERTILISER

Guano Powder

Wettable Powder - 12% P

- Source of phosphorus (12%) and calcium (25%)
- Microbe friendly
- P is essential for energy transfer and proper plant growth
- Ca is important for soil health and plant cell wall development

25kg

TYPICAL ANALYSIS

Total P - min 12%

Calcium - min 25%

CLEAN UP PROCEDURE

Use all mixture in spray and irrigation tanks; purge tanks and lines with clean water; flush irrigation lines.

STORAGE

Store in original container away from direct sunlight.

PRECAUTIONS

Physically compatible with a wide range of commonly used products. Always mix a small quantity (jar test) and check for physical compatibility before combining with other ingredients.
