Re: Assessment for Compliance of an Input Product to the United States Department of
Agriculture (USDA) National Organic Program (NOP)

Dear Sue,

The following products from 6177M Organic Farming Systems have been assessed for
compliance to the USDA NOP Standards:

- Fol Up
- Fulvic Acid Powder

The above products are compliant according to the requirements of the USDA National Organic
Program (NOP) for use in certified organic production systems.

The assessment of the abovementioned products are based on the formulation provided by
Organic Farming Systems. Any changes to these products are to be provided to NASAA Certified
Organic (NCO) in writing and a reassessment of compliance will be conducted.

This confirmation of compliance is valid while the abovementioned products remain unchanged
from the formulation submitted and while Organic Farming Systems retains certification with NCO.

Regards,
