

NEW ERA BETTER GROW

New Era Better Grow is a high quality, pelletised organic fertiliser based on composted poultry manure. It provides a microbe friendly source of nitrogen, phosphorus and potassium for improved soil and plant health.

The major difference between organic/sustainable fertilisers and synthetic fertilisers is the effect on beneficial soil biology and the solubility of the fertiliser.

APPLICATION RATES

Suitable for fruit and nut trees, vines, vegetables, row crops, tropical fruit, turf, pastures and cereals.
