**READ SAFETY DIRECTIONS BEFORE USE**  
**BIO - PROTECTION**

# Sanibac

**Ecological Disinfectant**

CONTAINS: 595g/L HYDROGEN PEROXIDE; 0.55g/L SILVER SALTS

- Suited to surface, spray and water disinfection.
- Tested against over 200 organisms
- Reliably combats bacteria, viruses, yeasts and fungi
- Decomposes into oxygen and water
- Actively penetrates and eliminates bio-film layers
- Suitable to treat drinking water

## FIRST AID

If poisoning occurs, contact Poisons Information Centre 13 11 26 or a doctor at once. Urgent hospital treatment is likely to be needed.

If in eyes, hold eyelids apart and flush continuously with running water. Continue flushing until advised to stop by a Poisons Information Centre, a doctor, or for at least 15 minutes.

Remove contaminated clothing and gently flush affected areas with water. Product may penetrate skin and cause severe deep burns. Seek immediate medical attention. Launder clothing before reuse.

If swallowed do NOT induce vomiting. Immediately give a glass of water and seek medical advice at once.

## DIRECTIONS FOR USE

For use as a general sanitiser, no rinse sanitiser, fruit and vegetable sanitiser, water treatment for animal and human consumption. Seek advice for specific situations.

Hard surface sanitiser

0.5 - 2.0% solution

Rinse with potable water

No rinse sanitiser

0.2 - 0.5% solution

Organic users must rinse with potable water

Fruit & vegetable sanitiser

30ml Sanibac per 1,000L water

Drinking (Potable) water treatment:

10-30ml Sanibac per 1,000L water

(NASAA does not regulate potable water rates)

Do not mix with other chemicals.
