Re: Assessment for Compliance of an Input Product to the United States Department of Agriculture (USDA) National Organic Program (NOP)

Dear Sue,

The Actinobact from 6177M Organic Farming Systems has been assessed for compliance to the USDA NOP Standards.

The Actinobact is compliant according to the requirements of the USDA National Organic Program (NOP) for use in certified organic production systems.

The assessment of the Actinobact is based on the formulation provided by Organic Farming Systems. Any changes to the Actinobact is to be provided to NASAA Certified Organic (NCO) in writing and a reassessment of compliance will be conducted.

This confirmation of compliance is valid while the Actinobact remains unchanged from the formulation submitted and while Organic Farming Systems retains certification with NCO.

Regards,

A handwritten signature in blue ink, appearing to read "Paul Fowler".
