Re: Assessment for Compliance of an Input Product to the United States Department of Agriculture (USDA) National Organic Program (NOP)

Dear Sue,

The Guano (previously known as High P Guano) from 6177M Organic Farming Systems has been assessed for compliance to the USDA NOP Standards.

The Guano (previously known as High P Guano) is compliant according to the requirements of the USDA National Organic Program (NOP) for use in certified organic production systems.

The assessment of the Guano (previously known as High P Guano) is based on the formulation provided by Organic Farming Systems. Any changes to the Guano (previously known as High P Guano) is to be provided to NASAA Certified Organic (NCO) in writing and a reassessment of compliance will be conducted.

This confirmation of compliance is valid while the Guano (previously known as High P Guano) remains unchanged from the formulation submitted and while Organic Farming Systems retains certification with NCO.

Regards,

A handwritten signature in blue ink that reads "Moeller".
