

PERMIT TO ALLOW RESEARCH USE AND SUPPLY OF AN
UNREGISTERED AGVET CHEMICAL PRODUCT

TO EVALUATE AN ATTRACT AND KILL TRAPPING SYSTEM FOR
MEDITERRANEAN FRUITFLY

PERMIT NUMBER – PER80271

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a Supplier (as indicated) to possess the product for the purposes of supply and to supply the product to a person who can use the product under permit. This permit also allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder, the Supplier (if not one and the same) and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 10 JUNE 2015 to 30 JUNE 2017

Permit Holder and Supplier:

SUSTAINABLE VENTURES PTY LTD trading as ORGANIC FARMING
SYSTEMS
43 Brighton Street
COTTESLOE WA 6011

Persons who can use the product under this permit:

Trial collaborators selected for the purposes of undertaking area wide trials who are trained and experienced in the use of agricultural chemicals.

CONDITIONS OF USE

Product to be used:

MAGMED, an unregistered product
Containing: 0.48 g/kg (0.01 g/trap) DELTAMETHRIN
286 g/kg (6.44 g/trap) AMMONIUM ACETATE
121.5 g/kg (2.73 g/trap) TRIMETHYLAMINE HYDROCHLORIDE
2.23 g/kg (0.05 g/trap) PUTRESCINE
as the only active constituents.

Directions for Use and Critical Use Comments:

Follow ALL directions outlined in the attached label for the product at Attachment 1.

This product has not been fully evaluated for efficacy on an area wide basis and should be used as part of an integrated program of control.

Jurisdiction:

WA only

Additional Conditions:

1. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label (Attachment 1).
2. PERSONS who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

Supply and record keeping:

3. The supplier must supply the product in a container that must:

- a) be impervious to, and incapable of chemical reaction with, its contents when under conditions of temperature and pressure that are likely to be encountered in normal service; and
- b) have sufficient strength and impermeability to prevent leakage of its contents during handling, transport and storage under normal handling conditions; and
- c) if it is intended to be opened more than once, be able to be securely and readily closed and resealed; and
- d) have sufficient excess capacity to prevent it from breaking if its contents expand during handling, transport or storage; and
- e) enable all or any part of its contents to be removed or discharged in such a way that, with the exercise of no more than reasonable care, the contents cannot:
 - i. harm any person; or
 - ii. have an unintended effect that is harmful to the environment.

Attached to this container must be a label which is identical in content and format to the label in Attachment 1.

4. A receipt for each supply must include details of the person/s, quantity of product and date when supply occurred.
5. The supplier must at the time of the supply of the product provide to the person a copy of the permit in full setting out the conditions and/or instructions for use approved by the APVMA.
6. This permit allows only the person or company listed as the Supplier to possess the product for the purposes of supply and to supply the product to a person who can use the product under the conditions of this permit.
7. The permit holder may only publish notices detailing the issuance of this permit and must state that the permit allows the use of an unregistered product. Publishing a notice by any means offering to supply the product is an offence against the Agvet Code and not exempted by issue of this permit.
8. The permit holder must maintain records of the research performed under this permit. Specifically the records must include the date and location where the trials were conducted, commodities treated, rates and frequency of application, total amount of product used and the names and addresses of the persons conducting the research. The records must be progressively maintained whilst the permit is in force and for a minimum period of two years from the date of expiry of this permit and must be made available to the APVMA upon request.
9. Upon a request being made, the records are to be provided:
 - Immediately if the request is verbally from an APVMA Inspector who has attended the premises
 - In the time specified in the written correspondence containing the request.
10. Upon a request being made, all records relating to the original research protocol/s and/or research planning prepared by the Permit Holder to conduct scientific research under this permit must be made available to an APVMA Inspector within 24 hours.

Maximum number of units to be supplied:

Total not exceeding 120,000 units
