

FERTILISER - SOLID

# New Era Custom Blend

Blended to suit specific requirements

- N - X %
- P - X %
- K - X %
- Made to order

1 tonne

## NEW ERA CUSTOM BLENDS

Blends are typically based on pelletised organic fertiliser from composted poultry manure.

They provide a microbe friendly source of nutrients for improved soil and plant health.

The major difference between organic/sustainable fertilisers and synthetic fertilisers is the effect on beneficial soil biology and the solubility of the fertiliser.

## APPLICATION RATES

Suitable for fruit and nut trees, vines, vegetables, row crops, tropical fruit, turf, pastures and cereals.

Application rates:

- 200kg to 2t/ha depending on blend

## TYPICAL ANALYSIS

As specified.

## STORAGE

Store in original container away from direct sunlight.
