

FERTILISER - SOLID

New Era High N

High nitrogen pelletised fertiliser

- All purpose fertiliser based on composted poultry manure.
- Ideal to provide extra nitrogen
- Broadcast, band or side dress

1 tonne - batch #

NEW ERA HIGH N

A high quality, high analysis pelletised organic fertiliser. It provides a microbe friendly source of nitrogen, phosphorus and potassium for improved soil and plant health.

High N provides a combination of immediately available and slow release nitrogen.

The major difference between organic/sustainable fertilisers and synthetic fertilisers is the effect on beneficial soil biology and the solubility of the fertiliser.

APPLICATION RATES

Apply 200kg - 1t/ha (20 - 100g/sq.m)

TYPICAL ANALYSIS

N - 8.0% P - 1.0% K - 1.0%
