Veterinary Medicines Authority**

**PERMIT TO ALLOW SUPPLY AND MINOR USE OF AN UNREGISTERED
AGVET CHEMICAL PRODUCT FOR CONTROL OF MEDITERRANEAN FRUIT FLY IN
VARIOUS CROPS**

PERMIT NUMBER – PER92548

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a Supplier (as indicated) to possess the product for the purposes of supply and to supply the product to a person who can use the product under permit. This permit also allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder, the Supplier (if not one and the same) and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 7 SEPTEMBER 2022 TO 30 SEPTEMBER 2025

Permit Holder and Supplier:
SUSTAINABLE VENTURES PTY LTD
43 Brighton Street
COTTESLOE WA 6011

Persons who can use the product under this permit:
Persons generally.

CONDITIONS OF USE

Products to be used:

MAGMED

AN UNREGISTERED PRODUCT

Containing: 0.48 g/kg (0.01 g/trap) DELTAMETHRIN

286 g/kg (6.44 g/trap) AMMONIUM ACETATE

121.5 g/kg (2.73 g/trap) TRIMETHYLAMINE HYDROCHLORIDE

2.23 g/kg (0.05 g/trap) PUTRESCINE as the only active constituents.

Directions for Use:

Crop	Pest	Rate
Commercial farms, not accessible to the public, producing: Citrus fruit, Pome fruit, Stonefruit, Grapes, Tropical Fruit, or Capsicums	Mediterranean Fruit Fly <i>(Ceratitis capitata)</i>	50 – 200 traps per hectare

Critical Use Comments:

- This product has not been fully evaluated for efficacy on an area wide basis and should be used as part of an integrated program of control.
- Use in accordance with the product label at **Attachment 1**.
- DO NOT USE in domestic/home garden situations.

Jurisdiction:

WA only.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label at **Attachment 1**.

The holder of the permit must notify the APVMA of new information, including relevant information in accordance with section 161 of the Schedule to the *Agricultural and Veterinary Chemicals Code Act 1994*, in accordance with the obligation imposed by that section.

Supply

The supplier must supply the product in a container that complies with the requirements of section 18 of the Agricultural and Veterinary Chemicals Code Regulations. Attached to this container must be a label which is identical in content and format to the label at **Attachment 1**.

Record keeping

Maintain records of all treatments performed under this permit. Details must include the date and locations where treatments occurred, the total amount of product used, and the names and addresses of the persons undertaking the use. These details must be maintained for a minimum period of two years from the date of expiry of this permit, and must be made available to the APVMA upon request.

The supplier must, at the time of the supply of the product, provide to the person a copy of the permit in full setting out the conditions and/or instructions for use approved by the APVMA.

Issued by the Australian Pesticides and Veterinary Medicines Authority

CAUTION
 KEEP OUT OF REACH OF CHILDREN
 READ SAFETY DIRECTIONS BEFORE OPENING OR USING

MagMED

**THIS PRODUCT IS NOT REGISTERED
 SUPPLY AND USE AUTHORISED BY
 APVMA PERMIT PER 92548**

ACTIVE CONSTITUENT:
 0.48 g/kg (0.01 g/trap) DELTAMETHRIN
 286 g/kg (6.44 g/trap) AMMONIUM ACETATE
 121.5 g/kg (2.73 g/trap) TRIMETHYLAMINE HYDROCHLORIDE
 2.23 g/kg (0.05 g/trap) PUTRESCINE

GROUP 3A INSECTICIDE

For control by means of attraction and killing of Mediterranean Fruit Fly (*Ceratitis capitata*) in orchards as described in the Directions for Use.

- Extended control for up to 6 months prior to harvest.
- Baited with USDA patented attractants.
- Low dose of insecticide.

sustainable systems for a better environment

DIRECTIONS FOR USE
 DO NOT place devices near or above developing fruits to avoid direct contact and any rain wash-off contaminating fruit.

Situation	Pest	Rate	Critical comments
Citrus, Pome, Stonefruit Grapes, Capsicum and Tropical Fruit	Mediterranean Fruit Fly (<i>Ceratitis capitata</i>)	Minimum 50 traps for low risk crops (e.g. citrus). Use higher numbers of traps in higher risk situations up to a maximum of 200 traps/ha.	Use as part of a Mediterranean fruit fly control program in conjunction with other controls. Apply early in the season before fruit becomes susceptible to attack. Devices should be hung as high as practical and on the sunny side of the tree on a strong branch which is not likely to break or be pruned before the end of the season. In most situations, 75 traps/ha is adequate.

**NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER
 CONTRARY TO THIS LABEL UNLESS AUTHORISED**

WITHHOLDING PERIOD: NOT REQUIRED WHEN USED AS DIRECTED

INSTALLATION OF THE DEVICES
 MagMED consists of a laminated plastic/paper device with built in hanger coated with insecticide on the outside and able to contain USDA patented attractant formulations inside. The attractants are incorporated inside the device. The device acts as a controlled release mechanism where the attractant releases odours through holes in the sides and base of the device.
 Use the hook to secure the device on the tree.

PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND ENVIRONMENT
 Do not contaminate waterways with chemical or used containers.

STORAGE AND DISPOSAL
 Store in a well ventilated area away from heat and direct sunlight. Avoid moisture. Keep away from sources of ignition. Avoid high temperatures and contact with acids or bases. Store in sealed package to avoid loss of the product. Do not expose the product to conditions of high temperatures before opening the package.
 Dispose of at a local authority landfill. If no landfill is available, bury the containers and/or traps below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS
 Use and store in well ventilated area. Avoid inhaling vapour. Do not touch or rub eyes, nose or mouth with hand when handling product. Facial skin contact may cause temporary facial numbness. Wear gauntlet length chemical resistant gloves when handling the product. Wash hands after use. After each day's use wash gloves.

FIRST AID
 If poisoning occurs, contact a doctor or Poisons Information Centre on 131126
