The compliance of *Organic - Ca* is valid under following restrictions:

Status	Allowed with Restrictions
Classification	Crop Fertilizers and Soil Amendments
Origin	Synthetic
Descriptions	Considered a 'soluble boron product.' May be used as a micronutrient. Soil deficiency of boron must be documented by testing. See also BORON PRODUCTS – SYNTHETIC.
NOP Rule Reference	205.601(j)(6)(i)

The assessment of these products are based on the formulation provided by Organic Farming Systems & Sustainable Farming Solutions. Any changes is to be provided to NASAA Certified Organic (NCO) in writing and a reassessment of compliance will be conducted.

This confirmation of compliance of these products is valid for 12 months subject to no change in the formulation(s) and/or process(es) submitted and while Organic Farming Systems & Sustainable Farming Solutions retains certification with NCO. Reassessment is based upon the submission of current formulas.

Yours sincerely,

Carolin MÖLLER - Authorised Signatory - Certification Officer
