

CROP HEALTH

Sabel-X

Horticulture

- Micro-encapsulated Trichoderma
- Promotes root growth and yields
- Next generation endophytic species
- Triggers positive plant gene expression
- Can be used with phosphate fertilisers
- For vegetables, fruit, nuts, vines & legumes

Contains *Trichoderma* spp 7×10^7 CFU/g.

Trichoderma species based on more than three decades of research at Cornell University and other international biological research programs. Their development is the latest result of screening more than 1,000 organisms from worldwide microbial libraries and selection/discovery programs, followed by hundreds of independent field trials around the world.

 SUSTAINABLE
FARMING SOLUTIONS
Harness the power of nature

Crop	Dosage	Comment
Vegetables (seed treatment)	2.4g/kg seed - small seeds 1.2g/kg seed - large seeds 30g/25kg seed - large seeds	Apply as dry seed treatment prior to planting.
Vegetables (in furrow & irrigation)	500g/ha	Dissolve 500g in 15L non-chlorinated water and add to mixing tank. A calibrated injection pump is recommended for even distribution. Apply directly at planting or within a week of planting.
Potatoes	250g/1tonne seed (seed treatment)	Apply as dry seed treatment prior to planting.
	500g/ha (in-furrow & irrigation)	Dissolve 500g in 15L non-chlorinated water and add to mixing tank. A calibrated injection pump is recommended for even distribution. Apply directly at planting or within a week of planting.
Legumes - all (Seed Treatment)	30g/25kg seed	Apply as a dry seed treatment prior to planting.
Sugarcane (dip)	500g/40,000 billets	Dissolve 500g in 400L non- chlorinated water for dipping. Dip in 40,000 billets.
Tree crops & Vines (Via Irrigation)	At planting: 0.5g/seedling < 5 years 1st root flush: 0.5g to 1.0g/tree/vine 2nd root flush: 0.25g - 0.5g/tree/vine > 5 years 1st root flush: 1.0g/tree/vine 2nd root flush: 0.5g/tree/vine	Dissolve in 15L non-chlorinated water. Apply as a root drench or via the irrigation system. For seedlings, apply at planting. For mature trees, start at first seasonal root flush; repeat in autumn root flush.

Store away from food stuffs in a cool dry place below 24 deg C and out of direct sunlight. Do not refrigerate, freeze or allow to overheat.

- **Not suitable for Corn - Sabel-X Corn contains specific strains for corn.**
- Contents may settle. Shake well before use.
- Do not inhale product dust.
- Avoid contact with eyes and skin. If skin or eye contact occurs, flush with copious amounts of clean water.
- Do not eat, drink or smoke while handling the product or before washing hands.
- Wash hands with soap and water after use.
- Destroy empty bag and do not use for any other purpose.
- Prevent contamination of food, feeds, drinking water and eating utensils.
