**SUSTAINABLE
FARMING SOLUTIONS**
Harness the power of nature

Sabel-X Cereals contains live micro-encapsulated Trichoderma fungi.

Directions for Use

Application rate as a dry seed treatment:

Wheat, barley, oats, cereal rye, spelt, triticale - 30g per 25kg of seed.

Sorghum - 60g per 25kg of seed

Method:

Apply as a dry seed treatment prior to planting.

Mix/shake contents of pack prior to use.

Sprinkle Sabel-X Cereals onto seed in hopper.

Treat in one bag increments to ensure uniform coating of seed with Sabel-X Cereals.

Mix until uniform seed coverage is obtained.

Plant treated seed directly after Sabel-X Cereals seed treatment has been applied.

Can be used on fungicide treated seed.

Store away from food stuffs at a constant temperature from 4 to 24°C out of direct sunlight. Do not refrigerate, freeze or allow to overheat.

- Contents may settle. Shake well before use.
- Do not inhale product dust.
- Avoid contact with eyes and skin. If skin or eye contact occurs, flush with copious amounts of clean water.
- Do not eat, drink or smoke while handling the product or before washing hands.
- Wash hands with soap and water after use.
- Destroy empty bag and do not use for any other purpose.
- Prevent contamination of food, feeds, drinking water and eating utensils.
